DETAILED ACTION

Claim Rejections - 35 USC § 112

1. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

2. Claims 9-12 and 19-20 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claims 9, 11, 12, 19, and 20 each recite “wherein said controller selects...” in line 1. This limitation is confusing in that several “controllers” and a “controller selector” have been positively recited in the claims and it is unclear which element is being referenced.

Claim Rejections - 35 USC § 102

3. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

4. Claims 18-20 are rejected under 35 U.S.C. 102(e) as being anticipated by Nishimura (U.S. Patent No. 6,524,221).

Nishimura discloses a controller having all elements as claimed, including an automatic clutch controller that automatically controls an engagement force of the clutch, a manual clutch

Art Unit: 3611

controller for manually controlling the engagement force of the clutch, a controller selector that selects one of the automatic clutch controller and the manual clutch controller (e.g. 310 as broadly recited, or 306); and further wherein the controller selects the automatic clutch controller in an initial condition of an ignition switch being turned on, or when the traveling speed of the vehicle exceeds a threshold speed (e.g. zero).

Allowable Subject Matter

5. ~~Claims 1-8 and 13-17 are allowed.~~

6. Claims 9-12 would be allowable if rewritten to overcome the rejection under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action and to include all of the limitations of the base claim and any intervening claims.

Conclusion

7. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event,

Art Unit: 3611

however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
